

# Heat Pump Quickie Kit (Split System)

Designed for convenience and efficiency, this Quick Installation Kit is the perfect solution for installing split system heat pumps with ease - complete with insulation to meet state government regulations.

AVG's Heat Pump Quickie Kit simplifies installation and saves time by including all the necessary components for a hassle-free installation. It is compatible with most standard split system heat pumps, making it a versatile and practical choice. The enclosed drawing provides clear guidance on how to use the kit effectively, ensuring a smooth installation process every time.

## KEY FEATURES

- Suitable for Split System Heat Pumps
- Everything you need in the one box - no missing parts on the job
- Insulation - Comes complete to meet state government regulations and is UV stabilized and water resistant
- Flexible - can be modified to meet different installation requirements in various states and councils, i.e. the expansion control valve
- Simple and easy to assemble - All installations are done the same
- Quick and simple - reduces the time on installations
- Kits available in 15mm

## PRODUCT CODE

QIK15-HEATPUMP    Heat Pump Quickie Kit (Split System)

## TECHNICAL DATA

Technical Notes	The QIK15-HEATPUMP includes the below items:
	1 x TVA15CHP
	1 X NRI-PRV-15C
	1 X BFT15Q15C
	3 X BFEQUICKIE15
	1 X BFE20MI15CQIK
	1 X BFU15MI15C
	2 X BFU15FI15C
	2 X INS-PTR-ECV
	1 X BFP15
	1 X RFW15MM-6PKT
